## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20, 22-29 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by Liu et al. U.S. Patent No. 5,518,956.

Liu et al. disclose a method for ablating surface using a controlled laser beam, such that a selected energy density is delivered to the surface to be ablated, wherein the energy density per pulse is typically about 1  $\mu$ J or less (see the abstract and col. 4, line 64 through col. 5, line 22).

Note, the laser system of Liu et al. is not adapted for biological/ medical treatment. Nevertheless, they teach a controller adapted to control the laser energy as claimed. As to claims 22-29 and 39, the recited claims languages are devoid of any structural and/or functional limitations. These claims languages are directed to intended use and/or expected results of the claimed device and, therefore, are not a given a patentable weight.

### ***Allowable Subject Matter***

Claims 30, 32-38 and 40 are allowed.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
